<b>Distribution</b>	
Starstruck Media offer many different methods of distribution. We distribute worldwide.	
<b>Courier:</b> We have accounts with the major courier companies such as FedEx, UPS and Royal Mail Parcelforce. These rates are published on the respective companies' websites.	
<b>File Transfer:</b> Using FTP is a simple way to transfer broadcast-quality material. Video and audio is uploaded at Starstruck Media (upload time is dependent on size of video files). We give you a website address where you can download the video your end. File Transfer: Using FTP is a simple way to transfer broadcast-quality material. Rates are dependent on speed of download required and length of video/audio. Rates start from £20 for a three minute music video.	
<b>Fibre/Satellite Lines:</b> Starstruck Media uses Ascent Media to fibre media around the world. For the Los Angeles area, Ascent Media has an office in Burbank, CA which is connected to the Pacbell hub. Alternatively, media can be transferred to Digibeta or electronic media.	
<b>Fibre Rates</b>	
London - LA (8mbps) standard definition	£280 per hour
London - LA (15mbps) high definition	£390 per hour
Local tape dump (approximate figure for Digibeta)	\$50 per 15 min dub
Bookings can be made in 15 minute segments. We can also arrange the booking through to individual company HQ. Please ask for more information.
